

Easier by Design

Effective and affordable garden care products.

Flymo invented the hover mower more than 55 years ago, and since then has continued to be a market leading manufacturer of effective and affordable garden care products.

Our passion for innovation is what defines us.

With constant design and technological development at the heart of everything we do, you can be sure our team of experts are relentless in their quest to deliver outstanding products that you can trust.

Through materials and construction, the use of the latest engineering techniques, plus stringent quality control testing, you can rest assured all Flymo products are built to last.

Through the Husqvarna Group Sustainavate program, by 2025 we aim to:

Reduce CO²

emissions by 35% across our value chain

Resource Smart

Launch 50 resource-smart innovations

Empower 5 million

customers and colleagues to make sustainable choices

H40

Hand Push Mower

The easiest and most environmentally friendly way to mow your lawn.

Ideal for small lawns, the H40 is made from a rigid, dual-tubular-steel construction chassis, which provides superior stability and eliminates body-flex, producing quality cutting results.

Optional grass catcher available.

For easy storage, simply hang on a wall.

Environmentally Friendly

Powered by the user, this mower produces no harmful emissions and is almost silent. Return the grass clippings and nutrients to the lawn as mulch or, catch them in the 45 L Collector - available as an optional accessory.

ENVIRONMENTALLY FRIENDLY

Produces no harmful emissions

MULCH OR COLLECT

Return to the lawn or, catch in the collector

NO-FRICTION KNIFE-BED

The 5 x blades cut the grass without touching

4-STEP CUTTING HEIGHT

Manually adjustable
